Bala Consulting Engineers, Inc.

SCOTT D. HOLSINGER, MCE, PE JOINS BALA CONSULTING ENGINEERS, INC. AS STRUCTURAL DEPARTMENT MANAGER, ALONG WITH ROBERT P. SCHAFFER, PE AS SENIOR STRUCTURAL ENGINEER.

Scott will lead Bala's structural engineering department and brings over 15 years of management and design experience. He has designed complex projects in steel, concrete, masonry, and timber construction for the healthcare, education, corporate, and pharmaceutical markets. Scott will work directly with owners, architects and engineers to ensure that Bala's structural engineering services exceed their project needs and expectations. As department manager, Scott has overall responsibility for project management, manpower forecasting, and leading the structural design effort from initial concept through construction.

Scott's structural engineering experience in the Philadelphia area includes projects for Temple University Hospital, Children's Hospital of Philadelphia, Glaxo-SmithKline, Merck, Johnson & Johnson, PNC Bank, Brown University, Cabrini College and Cornell University. He was an Adjunct Professor of Civil Engineering for the University of Delaware, where he also completed his Bachelors and Masters degrees in Civil Engineering with concentrations in Structural Design. Scott is an award winning engineer and frequent author in trade magazines.

Robert P. Schaffer, PE joins Scott as a Senior Structural Engineer. Robert brings extensive experience in structural design for the healthcare, education, pharmaceutical and corporate markets. He is also an expert in the use of 3-D finite element computer modeling, and building information modeling (BIM). He has completed projects for many of the area's major healthcare institutions, including Temple University Hospital, Children's Hospital of Philadelphia, Bryn Mawr Hospital, and AtlantiCare Regional Medical center. He received his Bachelors in Architectural Engineering from Penn State University.

Structural Engineering has been an important aspect of Bala's dynamic engineering service offerings for over 20 years, and we are pleased to have Scott and Robert joined our already experienced team.

Bala Consulting Engineers is an 80 person full-service engineering firm located in King of Prussia, Pennsylvania. Our engineering services include structural, mechanical, electrical, plumbing, fire protection, and voice/data systems. In addition to our engineering services, Bala also provides commissioning/validation, and mission critical IT consulting. The firm's areas of expertise include the commercial offices, healthcare and education facilities, data centers, retail space, and research and development laboratories.
