BALA CONSULTING ENGINEERS BECOMES AN ENERGY STAR

SERVICE AND PRODUCT PROVIDER PARTNER

Bala Consulting Engineers reinforced our commitment to protect the green building design by becoming an ENERGY STAR Partner. Bala's voluntary partnership with the U.S. Environmental Protection Agency's ENERGY STAR means that we will be working to help our clients improve the energy efficiency and performance of their facilities; we believe that an organization-wide energy management approach will help our clients enhance their financial health and aid in preserving the environment for future generations.

In partnership with ENERGY STAR, Bala will help clients measure and track the energy performance of their facilities, and set a goal to improve the energy efficiency of their facilities. To date Bala has been involved with over 60 LEED Design and Commissioning projects and numerous ENERGY STAR project certifications.

Bala Consulting Engineers is a 65 person full-service engineering firm located in King of Prussia, Pennsylvania. Our engineering services include integrated technology, structural, mechanical, electrical, plumbing, and fire protection systems. In addition to our engineering services, Bala also provides commissioning/validation, and LEED Design and Commissioning services. The firm's areas of expertise include commercial offices, healthcare and education facilities, data centers, retail space, and research and development laboratories.
