REAL GOODS SOLAR (RGS | ENERGY)

Real Goods Solar has over 30 years of solar industry experience, and is the nations largest purveyor of solar system installations, with over 13,000 installed systems. Bala's structural team provides building survey, load analysis and support solutions for RGS projects throughout the Northeast region. These projects total over 500,000 square feet of solar panel systems and over 5.24 MW of direct current (DC) power output.

A sample list of projects includes:

Delaware Valley Friends School
Paoli, PA
4,452 SF Solar Panel System
83.2 kW DC Power Output

Ancillae-Assumpta Academy
Wyncote, PA
11,179 SF Solar Panel System
98.6 kW DC Power Output

SK Realty Management
Middletown, PA
179,000 SF Solar Panel System
1.68 MW DC Power Output

Pingry School
Martinsville, NJ
32,263 SF Solar Panel System
394.24 kW DC Power Output

John Hopkins University
Baltimore, MD - Multiple Buildings
101,000 SF Solar Panel System
987.1 kW DC Power Output

Giant Food Stores
Multiple Locations (PA, MD, NJ)
93,000 SF Solar Panel System
1.25 MW DC Power Output
