

# BALA

## 2026 AIA Accredited Course Opportunities

### Sustainability

- > Climate Risk & Resiliency \*
- > Building Electrification
- > Net Zero Labs
- > WELL vs. Fitwell
- > Passive House
- > Whole Building Life Cycle Analysis
- > Massachusetts Stretch Code

### Structures

- > Structural Considerations for Existing Building
- > Warehousing Structural Systems
- > Mass Timber

### Technology

- > Learning Technologies in Today's Flexible Learning Environment
- > Technology in the Modern Workplace
- > Technology Choices for Multi-Family Projects
- > Designing for Responsive Buildings. Smart Buildings, IoT and User Experience

### MEP/FP

- > A2L Refrigerants & Code Implications
- > Smoke Control Systems
- > Infrastructure Considerations for Converting Office Buildings to Multifamily Resi
- > Chilled Beam Technology, Architectural and Energy Advantages \*
- > HVAC Systems Trends and Energy Saving Opportunities
- > Converting Office Space for Lab Ready Use
- > Energy Modeling Strategies
- > 2021-2024 Code Changes
