

A nighttime photograph of the Washington Monument and the U.S. Capitol building in Washington D.C. The Washington Monument is a tall, white, obelisk-shaped structure that is brightly lit from the bottom, making it stand out against the dark night sky. The U.S. Capitol building is visible in the background, with its iconic dome illuminated. The city lights and the Lincoln Memorial are also visible in the foreground and middle ground. The overall scene is a vibrant display of urban architecture at night.

BALA CONSULTING ENGINEERS
Washington D.C. Region

FIRM INFORMATION

Bala Consulting Engineers is a multi-discipline engineering and design organization comprising more than 200 engineers, designers, and support personnel. Established in 1982, Bala services educational, commercial, institutional, and industrial clients. We are privately held and actively managed by our Principals. Our staff is licensed to practice in 45 states and have completed projects both nationally and internationally.

Bala's mission focuses on People, Environment and Well-being. We are built on relationships first — relationships with our staff, clients and business partners. Bala's culture creates an environment for relationships to thrive and careers to flourish, helping our employees and clients achieve their personal and professional goals. Our passion and thought leadership for sustainability coupled with ideation focuses on creating an improved quality of life – for people and the environment. We create meaningful relationships and spaces that connect all people.
